†We have used a natural salt-based treatment which goes beyond simply conforming to the statutory REACH regulations. Our fabric also meets the strict requirements of the internationally recognised OEKO-TEX® 100 standard, so you can be sure that no chemicals are present that would pose a health risk.

Product is sold subject to Jay-Be® standard terms and conditions.

Comfort Science

1 Traditional hand tufted
Soft to touch fabric surface
50% viscose, 30% cotton,
20% polyester.

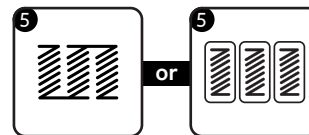

2 Wool
Performance layer of wool.
Naturally improving the fire
resistance of the mattress and
actively wicking away moisture.

3 Breathable e-Fibre
e-Fibre comfort layers allow
air to flow freely throughout
the entire mattress helping to
reduce moisture build up.

4 High Density
e-Fibre insulator
Helps to prevent
spring feel.

5 Deep e-Pocket
For responsive
contour support. **or** **5** Deep e-Sprung
For evenly
distributed support.

Health Science

Salt based[†] FR protection
A natural salt-based treatment
no chemicals are present

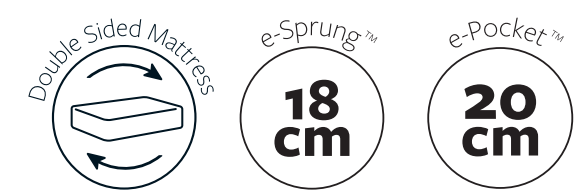

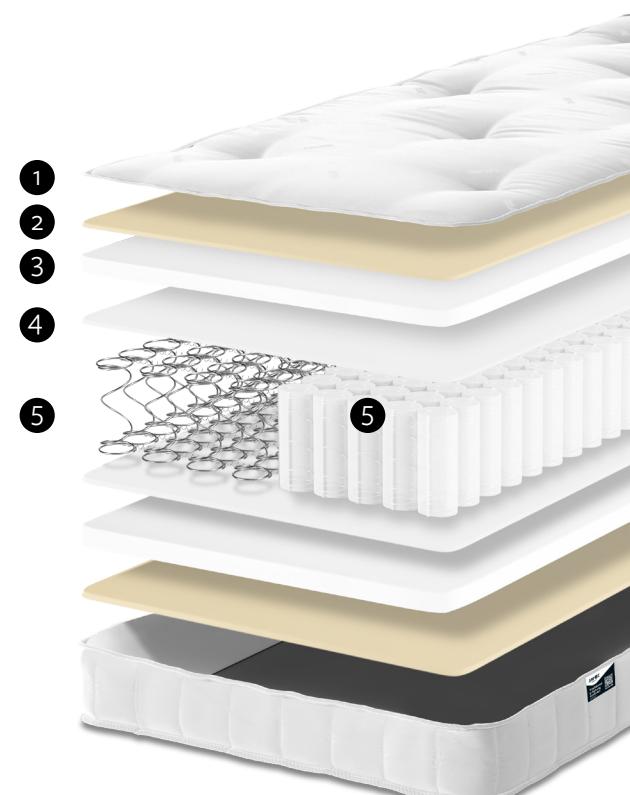

Hypoallergenic Materials
All materials used are hypoallergenic
helping to reduce the risk of an
allergic reaction.

Open cell construction
e-Fibre is breathable helping to
reduce moisture build up which
can become a breeding ground
for micro-organisms.

100% Foam Free
The e-Fibre used in our mattresses is
100% foam free and free from
harmful VOC chemical emissions.

Over 100 million plastic bottles* diverted from landfill and oceans.

*The e-Fibre™ used in our mattresses features polyester created from a minimum of 65% recycled plastic bottles and is fully recyclable at end of life. Weight of plastic described in equivalent number of average sized plastic drinking bottles.
